## FEED RACKS FOR SHEEPS

### RACK KO 5 FOR ROUND BALES

- RACK – for sheep with through

- KO 5 – for sheep, lighter, (3/4“)

- For round bales

#### Description:

galvanized construction (it can be without metal finishing shipped too), on request roof from galvanized or aluminium sheet, stone construction allows transport by the help of three-point linkage, skids or hitching on shackle eyes  
Feed racks for standard round bales. Simple and light-weight version for manual handling. Feed rack is only turned over on imported bale – handling manages one person. Oblique barrier prevents excess of feeding loss.

#### Specification:
